The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the claimed invention as a whole including a breather inlet passage including an upper end thereof in communication with an inside of a camshaft housing chamber and a lower end thereof in communication with the breather chamber at a position corresponding to a mating face between the cylinder block and the crankcase, said breather inlet passage being arranged in the cylinder block such that the breather inlet passage extends vertically, and an oil discharge hole being in communication with a lower portion of the inside of the breather chamber and arranged in the crankcase, in the context of a breather structure, which is adapted to be used with an overhead-valve internal combustion engine, in which a cylinder bore in a cylinder block comprises a breather chamber arranged below a camshaft housing chamber and at a side of the cylinder bore and a driving force transmission chamber, said breather chamber extending between the cylinder block and a crankcase.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marguerite J. McMahon whose telephone number is 703-308-1956. The examiner can normally be reached on flex.
